Winemaking & Sourcing: A favorite varietal of founder Josh Jensen, he planted some of the first Viognier in California. This low-yielding 6-acre vineyard produces Viognier fruit with great concentration, intense aromatics and a limestone minerality that is rarely found in this grape elsewhere in California.

Tasting Notes: Aromas of jasmine, brioche and apricot waft from this enticing Viognier. On the palate, flavors of orange creamsicle and honeysuckle are underscored by fine-grained tannins, which add poise and nuance to a vibrant, acid-driven finish.
